The infant daughter of Policeman Ed Carroll died yesterday morning, aged 2 months and 4 days. The funeral will be held this afternoon at 2 o'clock. Mr. and Mrs. Carroll, since living in Montana, have been exceedingly unfortunate, losing three children in two years. They have the sympathy of the community.

William Lee was arrested for vagrancy last evening. He is like the fly in the field, for he toils not neither does he sow, but lives off the earnings of Annie Lee, a Wyoming street siren. His arrest was due to a fight which occurred on Mercury street this evening. He was accompanying Anna to a restaurant for some supper, when a beer slinger named Viola Sherman happened along and a scrap resulted. It seems the two women are jealous of each other over the affections of William, and decided to settle the matter then and there. A policeman escorted them to jail. A charge of disturbance was set against the two females.

## Stockholders' Meeting.

BUTTE, Dec. 22.—There was a meeting held today of the stockholders of the Boston & Montana Mining company, for the purpose of devising some means for raising money to make contemplated improvements. There were 15,000 out of the 125,000 shares represented at the meeting. After a short discussion a resolution was adopted, without a dissenting vote, to mortgage the company's property at Great Falls for \$600,000, the money to be used for the erection at that place of a large electrolytic plant in connection with the smelters. This composed the business of the meeting, and after a few side remarks adjournment was taken.

## LEARY FEELS GOOD

Aroused From His Long Slumber He Speaks a Single Word.

## THE HISTORY OF HIS CASE

Theories That His Peculiar Affliction is a Form of Insanity—What the Doctors Think.

BUTTE, Dec. 22.—Leary, the great sleeper, was awake for about two minutes this morning, and during that time a fellow prisoner succeeded in getting a single word out of him. It is even believed that he opened his eyes, but on this point the companion is not quite certain. About 6 o'clock this morning Leary turned over on his couch and allowed his legs to hang over the side of it. A man rushed to him and yelled at him: "How do you feel?" Leary slumbered for a minute longer before answering and then said, "Good," and immediately went off into a sound sleep again—a sleep so sound that Gabriel's trumpet could not have broken it. In the hope of keeping him awake his companion yelled at him and shook him, sat on him and pounded him, hammered the iron floor of the cell and very near went crazy himself, but it was no go, and Leary continued his sleep undisturbed. Later in the morning County Physician Tremblay called to see Leary, but could do nothing for him, nor could he arrive at any solution of the man's strange affliction. Several other physicians, without having examined the man, think he is not asleep at all, but that it is simply a case of insanity which has assumed that form of stolidity, and that he is cognizant of everything going on about him. This view of the case, however, does not look reasonable, considering the tests to which the man has been subjected.

Mr. Holland, the Walkerville boarding house keeper at whose place Leary has been stopping for some time, called at the jail this morning and stated that for a few days before Leary went to sleep he was sitting in a chair from morning till night without speaking a word to anyone. He had a similar spell last spring, but of shorter duration, and his friends here thought it was a plain case of insanity and made arrangements to have him sent to Warm Springs. Leary's brother, who lives on a ranch in the Flathead country, heard of the case and came to Butte. He would not consent to the man being confined in the asylum and sent him to Utah, where he remained until about three weeks ago, when he again appeared at Mr. Holland's place, having walked the entire distance from Utah and was nearly starved, but otherwise seemed to be all right, although he complained of not feeling well. He has not worked anything since his return and had not been here long before he became sleepy. Leary is about 32 years of age, rather tall and spare and, aside from his one peculiarity, appears to be in good health. He is not known to have any relatives in this part of the country with the exception of the brother in the Flathead. He has been about the Butte mining camp for six or seven years and nothing peculiar has ever been noticed in him before the spell of sleepiness attacked him. He has never been known to use intoxicants to excess and never has received any injuries on the head.

The attention of the county commissioners was called to the case this morning. It was the first intimation they had of the matter and they proceeded to make inquiries, which resulted in reaching the conclusion that they could do nothing for the man. They thought he could be cared for as well in the county jail as in the poor house, and when they learned that there was a charge of insanity against him they were of the opinion that the case was out of the jurisdiction and should be looked after by the district court.

It seems that the best thing that could be done for the man would be to declare him insane and send him to Warm Springs, the only place where he could receive proper treatment. However, as Judge McElhatton has recently made an order that no hasty action shall be taken in alleged insanity cases, Leary will probably be kept in his dark, musty cell for several days or a week longer.

Dr. Tremblay this evening made another examination of the sleeper, and while he was still sleeping, the doctor nevertheless said that he found him more susceptible to feeling, which he considered an indication that he is recovering.

## Walkerville Notes.

WALKERVILLE, Dec. 22.—John Hambly had his right foot crushed today by the falling of a heavy pump in the 1,500-foot level of the Alice mine.

The Methodist Sunday school will have a Christmas tree in Odd Fellows' hall next Wednesday evening. About \$125 has been collected by the children, which will be applied to the purchase of presents and decorating the tree.

A rich body of ore has been discovered in the 1,000-foot level of the Blue Wing. It is stated on good authority that one of the largest mining deals ever known in Montana is about to be consummated, and will place all the mining property, the north of Walkerville under one management and one ownership. Three engineers and mining experts, Messrs. Breunoble, Churchill and Walton, representing an English syndicate, have been looking the property over for some time, and it is understood they have rendered a favorable report. The deal will include the Alice, Moulton and Amy & Silver Smith, together with the various prospects and claims to the distance of some two miles north of the city. The STANDARD's informant also says that the syndicate has already offered \$2,500,000 for the Alice mining property.

## A NEW COMPANY.

Articles of Incorporation Filed of a Large Mercantile Concern.

BUTTE, Dec. 22.—A certificate of incorporation of the Kenyon-Connell Commercial company was filed today by the incorporators, William R. Kenyon, M. J. Connell and J. A. Coram. The objects of the new company are to carry on a general commercial hardware business; to buy, sell and deal in mining and mill supplies and machinery and merchandise of all kinds; to sell, buy, exchange and deal in all kinds of real and personal property, including shares in other corporations, and to carry on any other business and do any other things in connection with the objects above mentioned that may be necessary or proper to successfully accomplish said objects. The capital stock of the company is placed at \$250,000, divided into 2,500 shares of the par value of \$100 per share. The term of the company's existence is 10 years. Seven trustees shall manage the affairs of the company, and those for the first three months are William R. Kenyon, M. J. Connell, J. E. Gaylord, J. A. Coram, C. C. Rueger, C. H. Palmer and A. S. Bigelow. The principal office is in Butte.

Seven trustees were selected for the company to-day, and their names will give an indication of the influence of the great hardware firm. The trustees are: W. R. Kenyon, M. J. Connell, J. E. Gaylord, manager of the Parrot company; C. C. Rueger, manager of the Lexington; C. H. Palmer, manager of the Butte & Boston; A. S. Bigelow, president of the Boston & Montana company; M. J. Connell is president of the company and W. R. Kenyon vice president and general manager. The company, as stated in the STANDARD yesterday, is planning to add a large grocery concern to its present business, and it is more than possible that the store of John Caplice & Co. will be purchased.

A compact has been entered into by the new concern, the Bonner Mercantile company and the Miners' Lumber company, by which all shipments will be made over the same route. It is expected that by this compact freight rates will be much reduced in the district around Butte and towns which would be tributary to Butte, but for the arbitrary rates that have prevailed. If this is effected the syndicate will not alone be favored, for under the inter-commerce bill, any points gained by the combination will be beneficial likewise to all other shippers, as the rates must be thrown open to all.

## LACOURSE'S CHALLENGE.

Richmond Doesn't Seem Very Anxious to Meet Him.

BUTTE, Dec. 22.—Five local amateur walkers have accepted C. H. Richmond's proposition to walk two miles each in succession while Richmond is walking 10 miles all by himself. The five locals are: Joe Dalton, E. Selman, M. Driscoll, Walter Beck and an unknown. The local men are training at the rink every day to get in condition for the fray. They intend to make it exceedingly warm for the professional any way, and are confident they can win. The rink will be especially arranged for the match, which will come off on Christmas day. It is likely to prove a most interesting race. In regard to the challenge of Richard Lacourse, published in this morning's STANDARD, Mr. Richmond said: "I am only a walker. I can't run, and of course no walker can beat a runner. There is no doubt on earth that Lacourse can beat me in a six-day race. The only way in which I would go into a race of this kind would be by Lacourse giving me a reasonable start. I don't think, however, that such a race would attract enough interest to pay out here."

"I would, however, like to get up a six-day race of four to six hours each day, open to Montana amateurs, let no professionals in at all, and have about 10 local men. That would be quite interesting. I am trying to get up a 24 or 36-hour race of that kind. They could walk from 7 or 8 o'clock in the evening until midnight, and 1 o'clock in the morning, and then rest until the next evening. I am trying to get up a match of that kind."

## TOUGH MR. MONAHAN.

A Statement About His Arrest at Silver Bow.

BUTTE, Dec. 22.—The following letter from the station agent at Silver Bow explains itself. In regard to the \$1 given Monahan yesterday by Deputy Sheriff Hankley, the letter explains today that it was given out of charity and on request of Monahan, who was broke. Judge Muldon also stated that Hankley went security for Monahan's fine and costs to keep him from returning to jail, so that the latter's story of ill treatment at the hands of the deputy sheriff seems unreasonable.

SILVER BOW, Dec. 22, 1891. To All Concerned: Regarding a item which appeared in the STANDARD this morning stating that Deputy Sheriff Hankley had badly abused one Tom Monahan, I wish to say that Monahan had been drinking and had strolled into the depot waiting room abusing and insulting every one, including several ladies. I quietly desired him to leave and leave the waiting room. This he refused to do and became more abusive and insulting, whereupon I pushed him outside, not desiring to injure him, but he rushed at me like a wild beast, striking and kicking. I was compelled to defend myself, but only to the extent of protecting myself from his vicious attacks. He got the worst of it; his friends pulled him away and he continued to insult every one he met. Hankley was not present, but he arrived later and was requested to arrest him, as he was using force to kill me with a coupling pin. He is a larger man than I am. Hankley used no unnecessary violence in arresting him, though Monahan exhibited an unusually vicious disposition. This was witnessed by a crowd of people, and the universal opinion was that he got off very easily considering the circumstances. D. D. McLAUGHLIN, Station Agent.
